// MOBILE SURVEILLANCE & REAL-TIME RESPONSE

See threats early. Respond in seconds.

Deterrence, detection, evidence, and response — a modern security stack deployed anywhere and managed on one command platform.

- **Rapid-deploy mobile units**
  PTZ cameras, floodlighting, and two-way audio.
- **Off-grid solar power**
  Dual 420W bifacial panels; runs through days of cloud cover.
- **Cloud evidence vault**
  Secure storage, export links, chain-of-custody.
- **Live remote viewing**
  PTZ and fixed cameras from any device.
- **24/7 professional monitoring**
  Trained operators, talk-down, and escalation.
- **Instant notifications**
  Audio, SMS, client and law-enforcement alerts.

DETERRENCE · DETECTION · EVIDENCE · RESPONSE

// COMMAND PLATFORM

One platform for video, sensors, monitoring, and response

Manage every unit on one map — view cameras live, verify events, trigger talk-down and lighting, and export evidence without on-site infrastructure.

01
Live Multi-Camera Viewing
PTZ and fixed cameras in real time, on any device.

02
Remote PTZ Control
Pan, tilt, zoom, presets, and patrol paths.

03
Automated Alerts
Escalate to on-site audio, SMS, teams, or law enforcement.

04
Talk-Down & Lighting
Trigger strobes, floods, siren, or live two-way audio.

05
Cloud Evidence Vault
Secure storage, export links, and chain-of-custody.

06
Unified Event Search
Filter by time, camera, unit, or event type.

CAMERAS & OPTICS

Razor-Sharp 25X Long-Range Zoom
Wide frame at 1X, vehicles in focus at 10X, fine detail at full 25X telephoto.

Secure Every Angle, Every Second
High-definition camera array with crystal-clear low-light imaging and no blind spots.

REAL-TIME RESPONSE, IN SECONDS

- On-site audible announcement
- Strobe / flood activation
- SMS / push notifications
- Client escalation workflows
- Optional law-enforcement sharing
- 24/7 monitoring by certified staff

UNIT HARDWARE

Audio Deterrence
121 dB horn speaker for live talk-down and prerecorded alerts.

Active Deterrence System
Four bright lights paired with blue LED strobes to warn intruders.

All-Weather Power Reliability
Dual 420W bifacial solar panels for maximum energy absorption.

Extreme Weather Resilience
90 mph wind rating and self-heating batteries for cold climates.

Rapid Mast Deployment
Telescoping mast offers a high vantage point for site-wide coverage.

Built-In Security & Tracking
GPS-enabled tracking with lockable steel enclosures for theft resistance.

// MOBILE UNIT PORTFOLIO

Choose the right footprint for every site

Trailer UNIT

Towable solar trailer for wide-area visibility.

BEST FOR · Construction, yards, events, open lots.

- 4 days uptime with zero sun
- Generator backup
- 6 cameras as a standard
- Speaker talk down
- One person can move it (ease of mobility)
- Always cloud update storage
- Proactive support
- Any device

Mast UNIT

Rapid-deploy mast for tight footprints.

BEST FOR · Entrances, corridors, temporary projects.

- Elevated camera placement, wide coverage
- Configurable PTZ + fixed camera package
- Optional two-way audio for talk-down
- Optional strobe / flood deterrence
- Solar / battery or site power
- LTE/5G with remote health checks

Box UNIT

Fixed box unit for gates and chokepoints.

BEST FOR · Access points, gates, and chokepoints.

- Pole / wall mounting (site dependent)
- Dual-camera housing (configurable)
- Integrated strobe / light for deterrence
- Ideal for entrances, loading bays, gates
- LTE/5G backhaul options
- Cloud recording with remote health checks

Configuration varies by site. Ask for a coverage map, camera package, and response workflow for any unit type.

REPORTED INDUSTRY OUTCOMES

13% ↓
Overall crime reduction reported within 6 months (select deployments)

40% ↓
Reduction in shoplifting / property incidents reported

88% ↓
Reported cost reduction vs. traditional guarding (up to), some managed-video deployments

Benchmarks reflect publicly available case-study and program claims across the mobile surveillance market; results are not guaranteed.
